DELACO® WOODEN HOOK

DELACO® WOODEN HOOK: WHERE FUNCTION MEETS SOPHISTICATION

The **Delaco® Wooden Hook** is more than just functional—it enhances the aesthetic appeal of your space. Designed to seamlessly integrate with our **Acoustic Panels**, it offers both style and practicality.

Available in **natural and black** oak, these beautifully crafted hooks bring elegance and sophistication to any room. Their minimalist design blends effortlessly with any décor, adding a modern yet timeless touch. Whether you prefer a sleek contemporary look or a classic feel, the Delaco® Wooden Hook strikes the perfect balance between form and function.

HOOK INSTALLATION STEPS

PARTS LIST

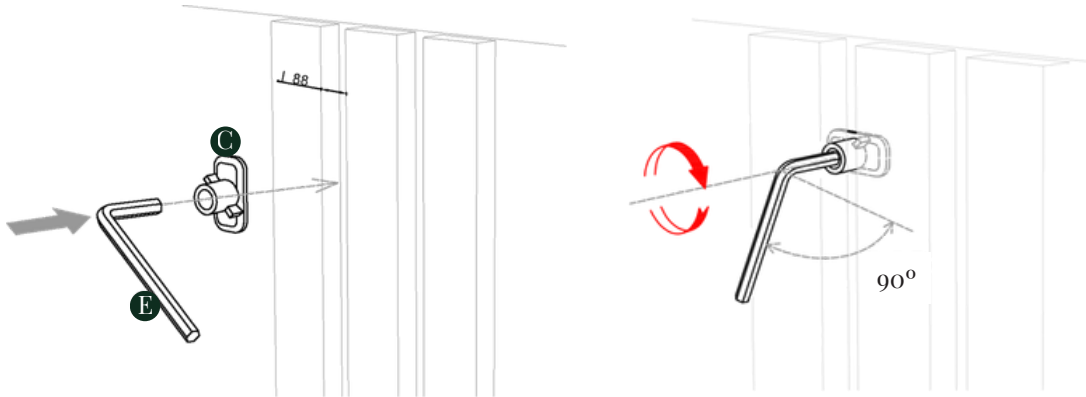

A 1PC	B 1PC

HARDWARE LIST

C 1PC	D 1PC	E 1PC

INSTALLATION STEPS:

Step 1: Confirm the installation location. Place the nut into the gap of the wooden strip in parallel. Press the nut a bit and then rotate it clockwise to lock the nut, as shown in the right picture.

Option 1 *Align the fixing hole of the hook with the nut.*

Insert the screw of the wooden handle into the nut and turn it clockwise until it is tightened then the installation completed.

Option 2 If only want to use the wooden handle, you just need put the washer on the wooden handle. Insert the screw of the wooden handle into the nut and turn it clockwise until it is tightened.
